

Code-Layout, Readability and Reusability

Date	28 June 2026
Project Name	SMART LENDER
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability

This document evaluates the quality of the SMART LENDER – Loan Prediction Using Machine Learning project in terms of code organization, readability, maintainability, and reusability. The project follows a modular Flask architecture with separate modules for data preprocessing, machine learning prediction, templates, and static resources.

S.No	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Python coding standards followed consistently.
2	Proper File Structure	Files and folders are logically organized	Yes	Flask app, templates, static, dataset and model folders organized.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Descriptive variable names used.
4	Function / Method Names	Functions are descriptively named	Yes	Functions clearly represent their purpose.
5	Code Comments	Inline and block comments explain logic	Partial	Essential comments available.
6	Modular Design	Code is split into reusable functions/modules	Yes	Separate ML model and Flask modules.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Minimal duplicate code.
8	Error Handling	Exceptions and errors are handled gracefully	Partial	Basic validation implemented.

Reusable Components / Modules

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Flask Application	Python, Flask	Backend	High
2	Loan Prediction Model	Scikit-learn	Prediction	High
3	Data Preprocessing	Python, Pandas	Training & Prediction	High
4	HTML Templates	HTML, CSS	User Interface	Medium
5	Static Resources	CSS	Frontend	Medium

Overall Code Quality Assessment

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure
Readability	4	Easy to understand
Reusability	5	Highly reusable modules
Documentation / Comments	4	Adequate documentation
Overall Score	4.5/5	Good coding standards followed
